- Forms
- Comments
- Tasks

# What's a Project?

In pro everything is inside of a project. A project has phases:

- Build - Source
- Build - Contract
- Build – Source - Contract

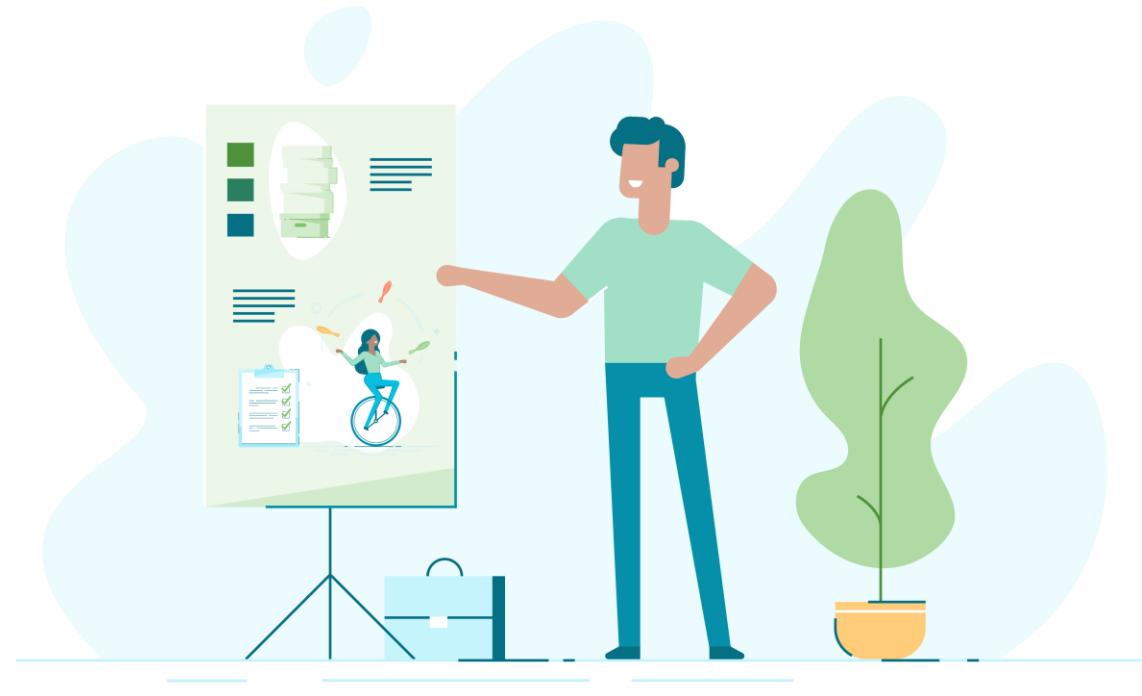

# What's a Project?

**Build** This is where you setup your project. Please review the settings prior to publishing to ensure everything is correct. You can change these settings as many times as you need prior to the publishing of the project.

**Source** This is where the tasks and activities happen after the Procurement Opportunity has been published and once it has been closed.

**Contract** This where the tasks and activities happen once a Procurement Opportunity has been Awarded.

# Support and More

# Community Hub

An online community forum,  
where we can connect with  
each other as often as we need  
to!
