# UNITING STATES FOR FALL FLIGHTS

## How your state contributes to record-breaking milestones

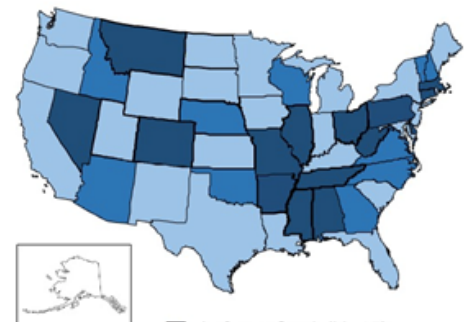

Thanks to your commitment, states collectively invested a record-breaking \$5.55 million in 2024 – putting us on the path to success! Let's unite and work together to keep the momentum going by reaching our Uniting States for Fall Flights campaign goal of states investing \$6 million annually by 2026.

### WHERE DOES YOUR STATE STAND?

#### 15 States Have Reached Their Goal

Congratulations! Your state has proven that achieving Fall Flight goals is possible. Keep advocating within your agency and maintaining your investment – your leadership is setting the standard!

You're **On the Water**

■ At State Goal (N=15)  
■ 50% - 99% of State Goal (N=10)  
■ 1% - 49% of State Goal (N=23)  
□ Did not fund (N=1)

#### 10 States Are Within 50% of Their Goal

You've met the Presidential Task Force recommendation of reaching 50% of your state's goal by 2026 – well done! Now, take the next step and join the 15 states that have reached their goal. Every additional dollar strengthens our collective impact!

You're **Cupped Up** and on your way to **Feet Down**

#### 24 States Are 50% Below Their Goal

There's still time! Your state can reach the 50% milestone by 2026 and lay the foundation for hitting your full goal by 2031.

You're **On the Swing**

Even if the 50% mark isn't feasible in the short term, significantly increasing your investment now will make a difference and lead to larger fall flights in the years to come.

# MILESTONES TO SUCCESS

## YOUR ACTIONS MATTER

Together, we can reach our campaign goal of \$6 million by 2026 and put our long-term goal of all states investing \$10 million by 2031 within reach. Your state's investments will leave a lasting legacy – ensuring future generations experience the awe-inspiring wonder of bird migrations.
