

Wow, what a difference a few weeks makes! Charlie, Mac, Phil & myself rode to Ellensburg for STEAM & BOD on October 15<sup>th</sup>. Yes we rode to Ellensburg in October! Steam & BOD was informative as always and we had great social time Saturday evening. BOD on Sunday morning was well ran and we got a lot of things accomplished in a short amount of time.

Sunday morning was crisp and clear, but it warmed up nicely by the time we headed out for home. Phil & I along with a member from Foothills headed South to Yakima via Canyon road. Up and over Chinook pass and home. I will say I can't remember the last time I rode from Eastern Washington to Western Washington without stopping to put on or take off layers. It was a weekend.

Fast forward a few weeks and we have seen tons of rain and now crisp COLD mornings I do believe fall has arrived.

Be safe out there! .
