MRF: 2025

The Motorcycle Riders Foundation (MRF) exists to take the message of freedom and motorcycling to Washington D.C., reminding those we have selected to run our government that they still work for the people. Every year, we contact our legislators making them aware of our position on issues that affect bikers. Then, each May, we gather at Bikers Inside the Beltway to remind them that we will also discuss these same issues right in their offices. In 2025 there have been two Calls To Action on issues of interest and Bikers Inside the Beltway is now less than a month away. If you have not done these Calls To Action or registered for Bikers Inside the Beltway, your time is up. Do these now! The future is counting on your participation.

The REPAIR Act ensures that vehicle owners or repair shops can access the information, software or tools needed to work on vehicles. This proposed commonsense law establishes rules regarding vehicle data access and will help preserve consumer choice and a fair marketplace.

REPAIR Act Call To Action

This bill focuses on protecting the internal combustion engine. It does this in two ways. First, the bill prohibits using authority under the Clean Air Act to issue regulations that mandate the use of any specific technology or would limit the availability of new motor vehicles based on the vehicle's engine type. Second, the legislation requires the Environmental Protection Agency (EPA) to update any regulations that result in the limited availability of new vehicles based on the engine.

CARS Act Call To Action

While many groups and organizations visit Congress to advocate issues, few are more visible or beloved than motorcyclists. For 15 years, the Motorcycle Riders Foundation has conducted our Bikers Inside the Beltway event. During this time, the annual event has grown in size and scope, with bikers from coast to coast making the trek to D.C. to advocate for their fellow riders. It has become a day that Congressional offices prepare for and embrace!
