

## KEY PENINSULA CHAPTER REPORT

Greetings from the Pen!

We hope you all had a great holidays and got to spend some time with your people and that Santa was good to you as he was to us. Our chapter had our after holiday party just the other night. It was well attended and everyone seemed to enjoy being there. We had several friends of our chapter join us which was great. Nothing like some QT with friends.

Black Friday will have come and gone by the time this gets to you so we now set our sites on moving forward into the new year and new adventures on the road. Think about looking at not only what's going on in your chapter but what your brothers and sisters in other chapters have going on and make the effort to go be a part of that too. It really goes a long way in building good relationships and more so friendships that make getting things done easier, whatever the goal. I'd walk a mile for any of you and even further for those of you I've invested time in and that I now call friend.

You're out there and I appreciate you and am grateful we had Abate bring us into each others lives. You have people out there that fit this too.

As always Abate of Washington , stay cool!
