

H.R. 1566 - The REPAIR Act Right To Equitable And Professional Auto Industry Repair

Should you have the choice of where to bring your motorcycle for repairs or to do the work yourself? Should you have access to the parts, tools and service information required to maintain, service and modify your bike? Do you want to control who may access the data from your motorcycle and its use? If you answered yes to these questions, it is time to contact your member of the House of Representatives and ask them to cosponsor H.R. 1566, the "Right to Equitable and Professional Auto Industry Repair Act", known as the "REPAIR Act."

The REPAIR Act ensures that vehicle owners or repair shops can access the information, software or tools needed to work on vehicles. This proposed commonsense law establishes rules regarding vehicle data access and will help preserve consumer choice and a fair marketplace.

A similar bill was introduced during the last session of Congress and cosponsored by 56 Representatives. We need to surpass that number during this session. Help us today!
