

Pacific County Chapter Report

Black Friday is in the rear view mirror, but political season isn't over. After building a rapport with our Legislators, a follow up is always good.

Wrenching season is also in full swing. Now is a good time to spend awhile addressing those little issues that cropped up last year, before they spoil your Spring rides. You might find a few things to add to your shopping list for the ABATE Spring Swap Meet in Monroe, Mar. 26.

Old school tip: A good emergency de-fogger for visors or glasses, is a piece of raw onion. Just rub it on the lens surface. It greatly reduces the fogging, but may cause increased hunger!

Stay Sharp and Ride Safe,
John Tschannen
