New Patrol Vehicles Enabling Police Effectiveness

To do their job effectively, it is critical that our law enforcement officers have the best tools available. Police are first responders to vehicle accidents, shooting incidents, fires, robberies, and domestic disputes. Empowering Police with the right tools and equipment for their job, ultimately enables them to protect and serve our community. When it came time to replace one such tool, an old patrol car that has been discontinued by the manufacturer, it was replaced with a new utility vehicle, the Ford Explorer, customized and equipped with a wide range of modern technology for the ordinary to the extraordinary circumstances our brave heroes may face.
