Our Community Emergency Response Team (C.E.R.T.) program recently completed a training session with 19 employees from the El Segundo School District. This free program helps train El Segundo citizens, businesses and schools to be better prepared during disaster situations when emergency services are limited. We strive to keep these classes informative and fun and the training will make a difference when it counts. Classes are held at Fire Station 2 with our next academy beginning in March. To sign up, please contact Fire Engineer **Geoff Gerny** at (310) 524-1990.
