Water Main Replacement Mariposa Avenue

This water main replacement project will eliminate deficient sections of the system and enhance the water pressure and water quality on Mariposa Avenue between Lairport Street and Nash Street. The project includes the installation of approximately 1,600 linear feet of 12-inch water main with all valves and appurtenances, reconnection of water services and fire hydrants, testing, trenching, backfilling and paving. Construction is slated for March 2017 and is expected to be completed within two months.
