ROUNDTABLE DISCUSSION: What are you looking for from MWACA?

Do you want the opportunity to help decide what management and technical training comes to Cedar Rapids?

Does your team need diagnostic training, service advisor training, electrical training or something else?

This is a great opportunity to have input into the planning of your MWACA Cedar Rapids meetings.

Please join us on April 20th for an evening of discussion and dinner and let your voice be heard in the planning the future of our chapter. We look forward to having you join us!
