6 Keys to a Winning Team

In-Person training with
Lee Gray,
ActionCOACH

Most of us cringe when we hear there is an upcoming teambuilding, morale improvement, employee engagement, and team productivity workshop that we are expected to attend. Why are we so turned off? What is it about team dynamics that challenge many of us? Why does the idea of working on teambuilding conjure such negativity?

Many believe that working on team building is waste of time and money. They don't see a tangible return on investment on activities that force teamwork and team building. But it is critical that employees work in unison to reach organizational objectives. How do you do that without forcing them to work together?

Join ActionCOACH Lee Gray, as she focuses on six keys to building a winning team. The foundation of the process focuses on individual contributors and how they are fundamental to team productivity. The six keys to building a winning team includes;

1. Strong Leadership
2. Common Goals
3. Rules of the Game
4. Action Plans
5. Support Risk Taking
6. 100% Involvement and Inclusion

Join us as Lee Gray helps your business build a foundation for effective and productive teams.

Thursday, January 20

6:30 - 8:30pm
