

Midwest AUTO CARE ALLIANCE

Tax Strategies for 2026

Live Training with Eric Joern

Training Sponsored by

As independently owned automotive shops move through 2026, it's a great time to step back and take a closer look at your financial picture and prepare for the upcoming tax season. No matter how your year is shaping up, having a plan in place can help you feel more confident about what's ahead.

Top of mind for many shop owners today:

- How will economic changes impact my business?
- How do I manage rising costs while staying competitive?
- How can I continue to build and support a strong team?

These are all important considerations—but it's just as important to understand how your year will translate into your tax situation.

Join us for this session to learn:

- Smart, practical tax strategies for automotive shop owners
- How to estimate and prepare for your upcoming tax obligations
- Updates on tax laws and potential incentives to be aware of
- Simple steps you can take now to stay organized and plan ahead

This session is designed to give you clarity, helpful insights, and a better understanding of what to expect—so you can make informed decisions for the remainder of the year and beyond.
