

## Southeast Iowa Chapter

Tues, Sept 20, 2022

Dinner: 5:30-6:00PM

Training: 6:00-9:00PM

Pizza Ranch

233 Legacy Drive

Burlington, IA 52601

# Vehicle Electronics & Ignition System Diagnostics

## In-person training with Marc Dufort

This course prepares participants to diagnose and repair problems in body, chassis, HVAC and powertrain control systems as well as the data bus which connects them. Case studies are used to demonstrate techniques that can be used to reduce the time spent diagnosing issues.

During the course, participants will:

- o Learn enhanced troubleshooting for sensors and actuators with techniques to verify their operation
- o Learn to quickly interpret schematics and use them to determine a diagnostic path
- o Discuss methods to verify module operation and communication networks
- o Learn proven circuit testing to quickly lead you to the source of the problem
