Most of us cringe when we hear there is an upcoming teambuilding, morale improvement, employee engagement, and team productivity workshop that we are expected to attend. Why are we so turned off? What is it about team dynamics that challenge many of us? Why does the idea of working on teambuilding conjure such negativity?

Join ActionCOACH Lee Gray, as she focuses on six keys to building a winning team. including:

1. Strong Leadership
2. Common Goals
3. Rules of the Game
4. Action Plans
5. Support Risk Taking
6. 100% Involvement and Inclusion

In this 90 minute interactive presentation, Coach Lee Gray will challenge you to think about YOUR winning team. What is YOUR team's greatest opportunity? What is YOUR team's greatest weakness? What would happen to your business if the team showed up with 10 percent more everyday?

During this presentation, you'll discover the answers and how to apply them to your business.
