

## Southeast Iowa Chapter

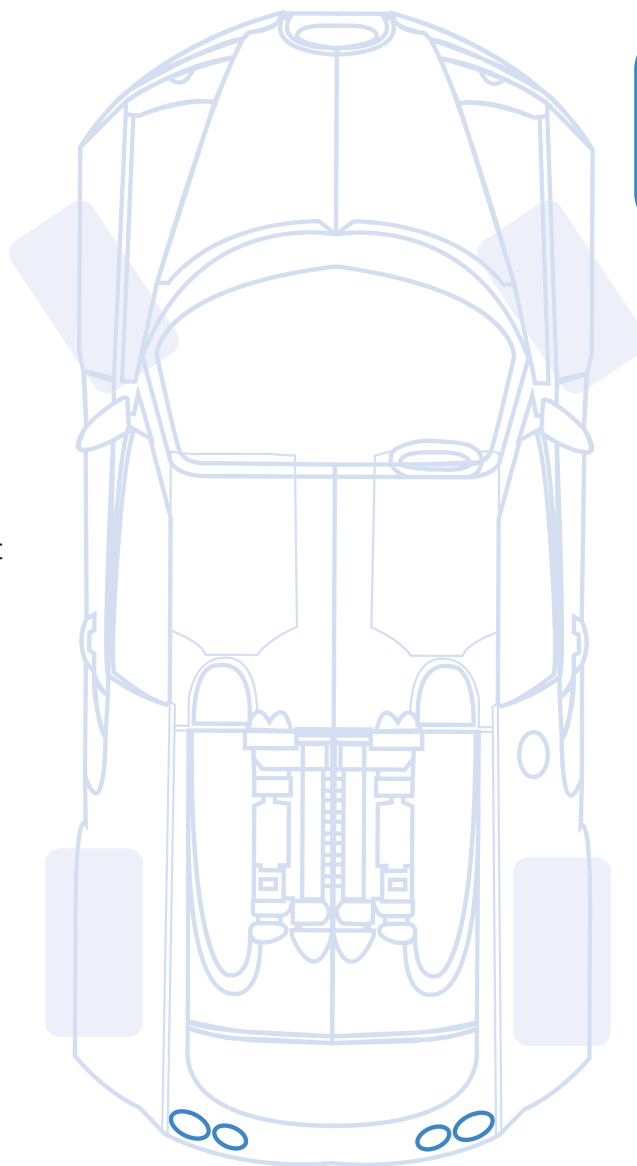

### HANDS-ON TRAINING: Balancing Today's Difficult Assemblies

by John Stratton  
Hunter Engineering

Hard to find, hands-on training with 70% hands-on and 30% class-room! This training covers balancing today's difficult assemblies, including a quick overview of wheel balancing principles and practices. This is followed by how to identify and correct tire and wheel related vibration issues not associated with balancing and how to ensure a smooth ride.

Class size is limited  
so RSVP today!

for  
shop owners  
and  
technicians

Tuesday, Oct 6, 2020

6:30-8:30pm
