**WHO IS THIS TRAINING FOR:**  
*Shop Owners and Managers*

Our objective for this course is to help you become a more effective business owner & manager through proper time management. What this means to you is, helping you develop systems that enable you to be ultra-productive throughout your day. This isn't your typical time management course, we'll view your day through the eyes of your service advisor, technicians, and customers. This alternative view on time management will help you create breakthroughs in your personal effectiveness. With a focus on work-life balance you'll leave feeling in control of your destiny and ready to create new breakthroughs in your work & life!
