

Indianapolis Chapter

Elevate the Excellence

Presented By
Lauralee Schmidt

The shop you've create can be average, or it can be excellent. You, and your team, get to choose that every single day. Let's push for excellence!

Together, we will uncover moments in our teams skills and services that can be molded into moments of automotive excellence.

We will discuss how we can better support our shops desired culture, fupill our visions as a leader, and identify ways to better our guests autocare experience.

Piece by piece we will elevate ourselves, and our shops, to excellence.

Who is this for: Shop owners and managers from a shop owner perspective on leveling up their leadership and shop culture.
