Is your shop getting the most out of 2023?

Top of mind for shop owners right now is:

- What effect will a recession have on my shop?
- How do I manage supply chain and inflation issues?
- Where can I find a new Tech?

These are all important topics for a shop owner to think about. However, 2023 is turning out to be a profitable year for many shop owners. If you don't have a plan in place, "How will I pay my tax bill?" may end up first.

Join us to hear about the best tax strategies to maximize your tax position, how to estimate what may come due on April 15th, what type of tax law changes and incentive programs may be on the horizon, and how to set yourself up for success for 2024.
