

## Cedar Rapids Chapter

# Diagnostic Playbook

In-person training with  
Andrew Fischer

What do you do when you need to plan an effective way to tackle an opponent? You go to your playbook! This class focuses on different techniques to quickly narrow down a diagnostic decision. Conventional and unconventional tests are performed in this heavy case study based class. Secondary ignition, in cylinder, pressure pulse, parasitic draws, are all covered. We will spend time on building a diagnostic process and then the execution with precision testing including secondary ignition, volumetric efficiency, delta pressure sensors, and other testing techniques to help you win every time! . Learn to build a process that works in your service bay. Use the tools you currently have at your disposal. But most of all, learn when to run special plays to get you in a winning position.

Saturday, August 9, 2025

8:00am - 5:00pm

Kirkwood Community College  
Automotive Technology Center  
101 50th Ave SW  
Cedar Rapids, IA 52404
