

## WICHITA CHAPTER

# Plan Your Team's Success at the 2027 VISION Hi-Tech Training & Expo in Kansas City

### PLANNING WORKSHOP WITH VISION VETERANS

Thinking about attending VISION 2027? Whether you're a first-timer or a seasoned attendee, a little planning can make a big difference in your experience! Join us for a casual, interactive discussion with VISION veterans who will share their tips, experiences, and advice for making the most of this incredible training event. We'll talk about registration and training options, choosing the right classes, navigating the expo, making valuable industry connections, and bringing what you learn back to the shop.

Have questions about where to start, what to expect, or how to plan your schedule? This is your opportunity to get answers, hear what has worked for others, and pick up ideas you might not have considered.

Whether you're a shop owner planning for your entire team, a technician or service advisor attending on your own, or somewhere in between, you're invited! Come with questions. Leave with a plan.

Let's make VISION 2027 your best experience yet!
