

Supply and Demand Roundtable

Have you ordered a part for a customer's vehicle only to find out it is not available for weeks or months?

In this roundtable, we will discuss who we are using to get parts, what are the delays we are foreseeing, and what plans shop owners are implementing to help with the pain of pricing, downtime and scheduling.

Vendors will also provide foresight on they are predicting for 2022 as well.

Let's help prepare each other so we can have a great year ahead!

Tuesday, Sept 20, 2022

6:30-8:30pm

Kirkwood Community College
Automotive Technology Center
