

## Kansas City Chapter

# What Kind of Diagnostic Detective Are You?

In-Person Training with  
**Jim Wilson**

ASE CMAT  
Veteran Gas, Diesel &  
Electrical Diagnostics  
Technical Trainer

Are you the Sherlock Holmes of your shop or are you Dr. Watson? Using Deductive Logic and Observation can increase your skills for finding the causes of DTC and symptoms with better accuracy. We will cover what items should be added to the diagnostic procedure to increase your skills. Pattern failures can help but can also lead you down the wrong path. Using an open logical mind will always increase the accuracy of diagnostics.

Thursday, February 16, 2023

6:30-9:00pm
