

In Connection in the UK.

Connected Riding is growing in the UK.

We are so pleased that Connected Riding is becoming more structured in the UK and we are working towards forming “Connected Riding® UK”, a Club to promote and support the further development of Connected Riding® in the UK.

The Constitution for the Club has been finalised and signed off by Connected Enterprises Inc and the UK Club are due to meet virtually soon to discuss the launch of the Club, election of Officers and to hear ideas from members on what they would like from Connected Riding® UK. We look forward to the future of Connected Riding® in the UK.

SCR 102 training

Having survived the snow in January 2019 for their SCR101 the wild welsh wet weather didn't put off the SCR102 group for their training in October 2019!

Here's how the group described their experience (we only allowed them one word each!)

- Inspiring
- Amazing
- Transformative
- Empowering
- Gob-smacking
- Enlightening
- Challenging
- Compassionate

Well done to Sara, Loretta, Caroline, Deborah and Janet for the shared learning and fun during the SCR 102 allowing so much understanding and skill to develop.

UK Practitioners

The UK is proud to announce that we now have two Connected Riding Practitioners. Big congratulations to Hayley Howells and Cat Wilton for completing their SCR 104.

UK top tip

If you struggle with using the longer wand (130cm), try downsizing to a 110cm wand – it made such a difference for the participants in the recent SCR102.
