

LOT #9**BECOME A NON-MEDICAL VOLUNTEER WITH MENDING KIDS**
Experience Volunteerism as a Non-Medical Volunteer and Change Lives

Mending Kids gives sick kids life-saving surgical care while advancing education and training towards medical sufficiency in their communities. For their overseas missions, assembled surgical teams travel to developing countries to mend children in need of life-saving surgeries, and to train local surgical staff to create sustainable programs.

As a non-medical volunteer, the lucky winner will assist with documenting patients, supporting the day-to-day needs of the surgical team, transporting and organizing medical supplies, and entertaining children visiting the hospital.

Training is provided and mandatory by Mending Kids and the lucky winner can choose their mission in Tanzania, Guatemala, or other mission locations scheduled by Mending Kids in 2020.

Estimated Value: \$3,000.00

Donor:
