College of Nursing

Tressa Nese and Helen Diskevich
Center of Geriatric Nursing Excellence

INTRODUCING THE NEWLY RENAMED Tressa Nese and Helen Diskevich Center of Geriatric Nursing Excellence

As an integral and innovative part of Penn State's Ross and Carol Nese College of Nursing, the center is an interdisciplinary community of clinicians, educators, scientists, and learners whose leadership involves actively improving health care and quality of life for older adults. Working toward its vision on the basis of the center's strategic pillars, which include education, research, translation of best practice, and collaborative partnerships, the center aims to ensure every older adult receives the highest quality of evidence-based care that respects their individual goals and preferences.

The center and college offer a wealth of resources and opportunities such as gerontological seminars, financial support for research and translational projects, collaborative partnerships, and so much more!

Interested in becoming a post-doctoral scholar?

The center is home to a number of distinguished educators and researchers who specialize in aging and gerontological science. The center's mission of improving the lives and health of older adults is central to all programming, including the mentorship of post-doc scholars.
