

# DO YOU KNOW WHERE YOUR COMMUNITY'S INFRASTRUCTURE IS LOCATED? GEOGRAPHIC INFORMATION SYSTEM (GIS) MAPPING

*With GIS Mapping you can locate and manage plans  
and documents for...*

**Fire Hydrants**

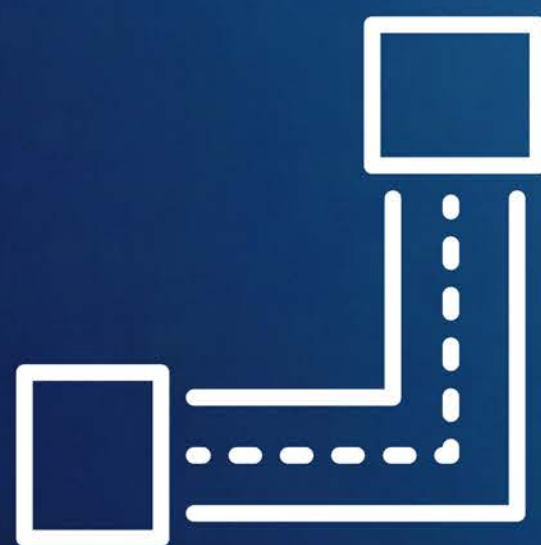

**Manholes**

**Water Lines**

**Sewer Lines**

**Bonded Roads**

**Stormwater Inlets**

*...and so much more!*

**GIS mapped data allows municipalities to see where  
infrastructure is located and how it relates to the surrounding area.**

***GIS qualifies for LSA Grant Funding***
