

# Safe Neighborhoods with License Plate Recognition

Residential Community Managers have the unique opportunity to take a proactive role in collaborating with law enforcement with the goal of creating safer neighborhoods for all. This can be done in many ways. However, technology is at the forefront of these collaborations whether it be through video footage or alarms.

As crimes like package theft, vehicle burglary, residential burglary and stolen vehicles become more prevalent, learn how License Plate Recognition technology within Motorola's product line-up can allow community managers and residents the ability to share this data with local law enforcement to improve outcomes for these incidents and help reduce crime.

**Who should attend:** Community Managers, HOA Board Members, Apartment Complex Management, Local Law Enforcement

Join us on December 18<sup>th</sup>, 2020 from 11:00 A.M. PST-11:30 A.M. PST, as Kyle Hoertsch, Vice President of Client Relations, Public Safety will be giving a presentation on what LPR can do for you.
