In Florence, guests stay in a centrally located private residence designed for comfort and connection, with space for up to six travelers. Days are filled with art, history, and culinary discovery, highlighted by a traditional Enoteca wine tasting that introduces the flavors and heritage of Tuscany in an authentic local setting. In Venice, travelers enjoy a private residence just steps from iconic landmarks. The included Hidden Venice Tour ventures beyond the well-traveled routes, uncovering quiet neighborhoods, historic architecture, and fascinating stories that reveal the soul of the city. Along the Amalfi Coast, guests stay in a charming coastal residence in picturesque towns such as Praiano, Conca dei Marini, or Maiori. Each location reflects the region's character, complemented by a private sunset cruise that offers breathtaking views of the coastline from the water.
