

Does your teen need to take a road test or driving lessons?

Rest assured that we are taking EVERY precaution to keep your child safe!

Covid-19 Precautions at Drive Smart Georgia

Precautions for Road Tests:

- The examiner and student will both be required to wear a clean mask during the road test. Please have your teen bring their own mask.
- To ensure a super safe road test, our examiner will take your student's temperature with a no-contact scan thermometer. Rest assured that our examiner will also be fever-free.
- Examiners will sanitize every surface, switch, mirror, steering wheel, seats and more before and after each road test.
- Upon arrival, please stay in your car. The examiner will come out to you. For your safety, parents can no longer wait in our lobby during the test.

Precautions for Driving Lessons:

- The instructor and student will both be required to wear a clean mask during the road test. Please have your teen bring their own mask.
- To ensure a super safe road test, our instructor will take your student's temperature with a no-contact scan thermometer. Rest assured that our instructor will also be fever-free.
- Students will get a break every 30 minutes for relief from wearing a mask.
- All in-car lessons will begin and end at one of our Drive Smart Georgia locations. This will allow plenty of time to properly and completely disinfect our cars before and after each lesson.
- Every surface, switch, mirror, steering wheel, seats and more in each vehicle will be sanitized before and after all lessons. Each car will be disinfected between shifts.
- Each vehicle will be equipped with disinfecting wipes and hand sanitizer.
- Students and parents will meet with the instructor (6' distance rule) outside to limit contact.
