# Screening of "Common Ground"

**Common Ground** is the highly anticipated sequel to the juggernaut success documentary, **Kiss the Ground**, which touched over 1 billion people globally and inspired the USDA to put $20 billion toward soil health.

Peace Dale Congregational Church, in collaboration with UUCSC and St. Augustine, will be hosting a screening of a "Common Ground", with discussion to follow.

Join the solution-driven movement of regenerative leaders as they make a case for soil health across North America and beyond. We can all find our 'common ground' to heal the soil, our health, and the planet. No action is too small.

Light refreshments will be served.
