The Deep Impacts of Composting

Have you ever wondered what the big fuss is about composting? How does compost actually impact our ecosystem? Does it really make a difference?

Join lifelong composter, Jayne Merner, from Earth Care Farm as she paints a picture of the lasting effects compost has on our world.

Although there will be a little 'how to compost' peppered in, this is really a talk about **why.** You will walk away from this talk fully in awe of the power of compost.
