Video Entry prompt:

With your animal at your side, or in front of you, please introduce yourself and your animal. Tell us about yourself (name, age, county, interests/hobbies), your animal (name, breed, age) and why you chose to show this specific animal. Please describe what you like about your animal and any changes you would like to see in the physical characteristics (structure) of your animal and why.

Next please tell the judge about your feeding and care program for your animal. How much does your animal weigh? Tell about any veterinary care you have provided for your animal and why.

Then, walk around the area that you are recording your video as if it is the show ring. Be sure to keep eye contact with the Judge (the camera) and switch sides as you move around your show ring. Do a full circle, stop and set up your animal so that the Judge (camera) can see all sides and the topline and then do another circle.

Make sure to have at least one setup where the Judge gets to do a full 360 of the exhibitor and animal. Make at least one full circle with the judge getting head-on, both sides and rear view while the animal is moving.
