NYC DOT will implement safety improvements in Bay Ridge and Dyker Heights, Brooklyn Community District 10, and expand the bicycle network coverage to create new neighborhood connections. These routes were chosen from a community driven process that consisted of a workshop and several sessions with the community board and local officials.

- Add new markings to narrow the road to calm traffic and reduce speeding
- Upgrade existing crosswalks to high-visibility crosswalks
- Improve access to transit, jobs, shopping, schools, adjacent neighborhoods, and create new cycling routes to the newly installed 7 Ave protected bicycle lane and other existing bike lanes.

Implementation starts in September

Please see the reverse side of this flyer for a list of locations where we will install standard bicycle lanes and shared lane markings.

For additional information about this project, contact the DOT Brooklyn Borough Commissioner’s Office at 646.829.1350 or visit our website: nyc.gov/dot.
