

Adventures From The HolterVerse

This comic anthology is the result of many hours of creative work, collaboration, and commitment. I want to thank Tana Ford for making three trips to Montana on those little airplanes. Your guidance, and teaching is a gift to all students who get the opportunity to work with you. Thank you to the Montana Arts Council, the Holter Museum Docents, and the Helena community for financial support for this project and for your continued support of teens in our community. Special thank you's go to the artists who worked through the creative process learning and stretching their creative talents. Extra special thanks to the Holter Museum of Art for supporting young artists and creating a space for them to be and work.

I just want to say...

The Holter Museum and Sondra Hines in particular has created a space of learning and fun that is (pardon the pun) a Marvel. My students thrived inside our classroom in the Holter Museum and every day they brought their best selves to the challenging lessons and new techniques I showed them. We covered a lot of ground in a rather short amount of time and at the end of it all, they have created not only the stories in this book, but the tools necessary for them to continue to make those stories and many others, as their lives go on. It was a pleasure watching these talented, hardworking artists grow over the course of our time together and I look forward to seeing what they will do next. The Holter is a delightful, refreshing place.
