

Are you curious about SOLAR ENERGY for your home?

Solar United neighbors of Pennsylvania are continuing to recruit residents who are interested in joining the Dauphin and Cumberland SOLAR COOP. The Derry Township Climate Change Advisory Committee and the Derry Environmental Action Committee are partnering with the non-profit SUN to spread the word. Exact Solar of Newtown, PA has been chosen by coop members to be the installer for the group. Coop registration will be open through March 28. SUN and Exact Solar will provide consultation at no cost to you, help you through the research and decision-making process, and provide an individualized proposal for solar at a bulk rate. To learn more, join us at one of the following information sessions. Or visit SUN's coop [website](#).
