**Re: West Hempfield – Hummelstown Transmission Line  
Parcel Number#**

Dear (Property Owner Name),

PPL Electric Utilities (PPL) will be evaluating an electric transmission line located on or near your property to determine if there are improvements that can be made to make your electric service even more reliable.

Each year, the electrical delivery system becomes more reliable, reducing power outages for you and your neighbors. This work is part of our continuing effort to be among the most reliable electric companies in the nation. While actual construction of these improvements may not begin for some time, you may notice workers performing surveys or other preliminary studies within the existing power line corridor and right-of-way.

PPL employees and hired subcontractors will be performing this work, which may involve driving or walking along the power line right-of-way and taking measurements, performing surveys, and obtaining soil samples, soil borings, or plant samples. While most survey work will be conducted by crews from the ground, drones may be used when necessary to collect information on the power line right-of-way. For your safety, we request you do not interfere with the field work or approach field crews unannounced. Please note, PPL employees and subcontractors working on behalf of PPL carry photo identification and a business card and are required to show them to any concerned customer upon request.

No action or assistance is required on your part at this time and we appreciate your cooperation as we prepare for this important work. Every effort will be made to avoid disturbing you and your property. Additionally, you will be notified well in advance of any construction activities to occur in your area.

If you have any questions or concerns, please feel free to contact me at 412-780-6268 or email: [Judy.buckner@contractlandstaff.com](mailto:Judy.buckner@contractlandstaff.com). Thank you for your cooperation.

Sincerely,

A handwritten signature in blue ink that reads "Judy Buckner". The signature is written in a cursive, flowing style.
