

**INVITATION FOR DERRY  
TOWNSHIP HOMEOWNERS**

---

# **2024 FALL STREET TREE PLANTING PROGRAM**

The Township of Derry is planning to apply for free trees through the Tree Pennsylvania 2024 Fall Bareroot tree planting program. The Township would like to make these free trees available to homeowners in Derry Township for planting along the streets within the public right-of-way. If successful, the Township would expect the planting of these trees in early November 2024. These trees are various species of 1 ½ inch caliper size—about 8-12 feet tall.

If you are a homeowner in Derry Township and would like a free tree planted along the street at your house, please contact Marisa Weldon, Public Works Department, at 717-533-2057, option 4. Please call on or before July 19th, 2024. If there are more applicants interest than receipt of trees, selections will be made on a first-come, first-serve basis.

Because these are free trees, there is a limit of one tree per homeowner. The exact location of the trees will have to be approved by the Township and a PA tree forester. When the trees are delivered to the Township, the Township will dig the holes for the trees. The trees will be planted by volunteers from the Derry Environmental Action Committee (DEAC). At the time of planting, the trees will be watered by the DEAC volunteers. After planting, the homeowner will be fully responsible for tree maintenance including, weekly watering, mulching, pruning, and protecting the tree from damage.
