BELL ARTICULATED DUMP TRUCK SAFETY

TIP SAFE
Won't allow bin to tip if pitch or roll exceeds limit.

HILL HOLD / HILL ASSIST
Auto application of parking brake on stopping on hills, requires sufficient torque and acceleration to release and prevents roll back.

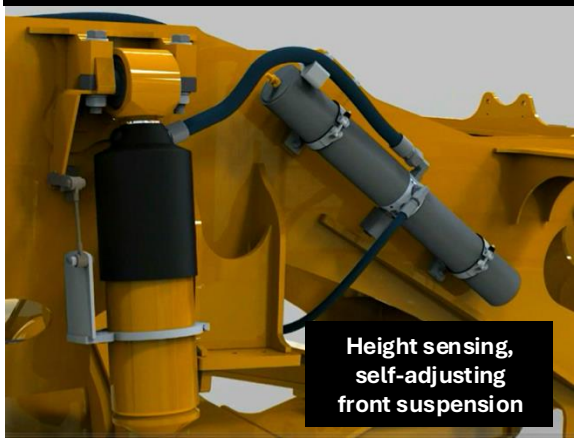

EMERGENCY STOP
Applies full brakes and retarders when needed to avoid collision.

PROGRAMMABLE SPEED LIMIT
Limit machine speed to promote safer operation.

AUTO HORN
Automatically sounds horn in certain conditions to alert people around the machine.

AUTO PARK BRAKE
Auto applies brake when machine is in neutral.

COMFORT RIDE

DESIGNED FOR PERFORMANCE

- **I-TIP**
  Auto application of full engine RPM, neutral and park brake, bin raise with one touch of a button.
- **AUTO TRACTION CONTROL**
  Auto engagement of interaxle diff lock plus cross axle diff lock available on larger models.
- **WALKING BEAM REAR SUSPENSION**
  Proven walking beam rear suspension for improved wheel-to-ground contact, ride comfort and stability.
- **ENGINE & BRAKE RETARDERS**
  Engine and brake retarders for improved braking control and reduced wear on service brakes.
- **NEUTRAL AND PARK BRAKE**
  Automatically engages neutral and park brake for safe and secure machine operation.
