# About Duravit

Founded in 1817 in Hornberg in the Black Forest, Duravit AG is today a leading international manufacturer of designer bathrooms. The company operates in more than 130 countries worldwide and stands for innovations in the fields of signature design, the intelligent use of technology and premium quality.

In cooperation with high-profile international designers, such as Philippe Starck, EOOS, Phoenix Design, sieger design, Kurt Merki Jr., Christian Werner, Matteo Thun and Cecilie Manz, the company develops unique bathrooms that really enhance quality of life for users on a sustained basis. Duravit's product portfolio comprises sanitary ceramics, bathroom furniture, baths and shower trays, wellness systems, shower-toilet seats as well as accessories.

For more information on Duravit please visit [www.duravit.us](http://www.duravit.us).

# Features and Benefits

Bathroom furniture has been manufactured in Schenkenzell, Germany since 1978, combining high standards of craftsmanship and the latest industrial production techniques. Around 170 employees manufacture vanity units, cabinets, shelves and consoles, the design and quality of which comply fully with our requirements and those of our customers. The advantages of having our own production facilities are obvious: only in our own furniture factory can we guarantee the design, manufacture and quality of bathroom furniture in line with Duravit standards. They are developed in tandem, which means that bathroom furniture and ceramics from Duravit complement each other and are perfectly coordinated. And, while our furniture is manufactured on an industrial level by series, we are always happy to tailor items to our customers' preferences and bathroom layout. Duravit bathroom furniture can therefore be as unique as custom-made furniture.

## An example of design and the craftsman's precision

The material thickness of the washbasin is hidden from view by the innovative c-bonded technology. It is reduced to a precise rim that, at the transition between the cool, smooth ceramic and the natural structure of the wood, feels uniquely pleasant to the touch.

## Comfortable operation, perfect order

With the new push-to-open technology, the drawers open with a simple tap and close with a gentle push. A new optional internal drawer system, available in Maple or Solid Walnut, keeps everything perfectly organized and tidy.
