Smart Shower Pan — for Tub to Shower Conversion

At first glance this looks like a normal shower base with a hidden drain — until you remove the drain cover. The drain itself is offset to allow this 60” x 36” base to replace an original 60” narrower tub, *without having to reposition the drain plumbing in most cases!* Perfect for hotel and condo remodels.

This base is manufactured in the highest-quality, USA-made Lucite® cross-linked cast acrylic, strengthened by a substantial multi-layered baking of fiberglass/resin/titanium and wood to prevent flexing of the shower pan. Optionally, the base can be factory-leveled and supported by high-density foam, making installation easier, saving on contracting labor and decreasing room down time.

This base was designed for a large Las Vegas hotel.

Patent Pending

MTSB-6036SOHD • 60” x 36”
Acrylic • integral tile flange on 3 sides
Left- and right-hand drain available
Stainless steel or white powder-coated drain cover
White, bone or biscuit glossy finish
