### INCREASED ACCESS AND CONTROL

- Optimized design delivers increased maneuverability and control in tight access applications
- Compact, lightweight design weighs 4.9lbs without a battery

### POWER TO CUT HARDWOODS

- POWERSTATE Brushless Motor delivers the torque to complete cuts in demanding materials

### FASTEAST CUTTING PRUNING SAW

- 30% faster speed of cut than leading gas pruning saw competitors
- Maintains speed under heavy load where competitive saws bog down

### USER DEMANDED FEATURE SET

- Lanyard hang loop – tie off point for aerial applications
- Variable speed trigger – full control over power curve range
- Easy access chain tensioner – quick adjustments to cutting system
- Automatic oiler – ensures proper lubrication of cutting system
- Metal bucking spikes – for increased user control
- Onboard srench storage – keeps srench accessible at all times
- Climbing scabbard – optimized for climbing application

### PART OF THE M18™ SYSTEM

- Fully compatible with 250+ solutions on the M18™ System
