At the election on Nov. 3, I urge you to vote yes for the purchase of CSX's inactive railroad corridor from Station Road to the Framingham town line. This corridor is slated to become part of the Bruce Freeman Rail Trail.

This section of the future rail trail bisects the hay fields of the former Mahoney Farm and will invite the creation of walking trails leading to homes at Grouse Hill and Mahoney Farm condominiums.

From there, a walk across Nobscot Road will invite walkers to enter the Boy Scout land and the extensive trail system covering Nobscot Hill. The city of Framingham is making moves toward the purchase of their section of the Bruce Freeman Rail Trail.

We can look forward to the day when the entire 24 miles of the former Framingham-Lowell railroad becomes a rail trail for all.
