

# HFSA Learning Center Quick Reference Guide

## INTRODUCTION

Welcome to the new HFSA Learning Center!

The new HFSA Learning Center provides members of the multidisciplinary heart failure care team and patients fresh, new education material. Among the new features, the HFSA Learning Center will be more intuitive in providing and suggesting appropriate content to the learner. We hope you find the new site easy to access and like the fresh new look.

This guide will help new learners login for the first time, explore the Learning Center, and purchase content. If you have questions along the way, please contact HFSA at [info@hfsa.org](mailto:info@hfsa.org) or by calling (301) 312-8635.

## GETTING STARTED

The HFSA Learning Center can be accessed at [learningcenter.hfsa.org](http://learningcenter.hfsa.org). Please see the images below for additional information.

The screenshot shows the HFSA Learning Center homepage. At the top, there is a navigation bar with the HFSA Learning Center logo, a search bar, and a 'Login / Create Account' button. Below the navigation bar is a banner for the HFSA website with a 'Visit www.hfsa.org' link. The main content area features a 'Browse' sidebar on the left and a 'Featured' section on the right. The 'Featured' section displays several educational items, each with a title, a 'Bundle' button, and a price range. Callout boxes provide instructions on how to use these features:

- You can login into your account by clicking here**: Points to the 'Login / Create Account' button.
- Clicking the banner will return you back to the HFSA website**: Points to the banner below the navigation bar.
- You can also search for specific words or items**: Points to the search bar.
- Our featured items will be displayed here. To view all our items, simply click the tab labeled *Catalog***: Points to the 'Catalog' tab in the featured section.
- Our *Browse* tab allows for easy navigation for finding specific items**: Points to the 'Browse' sidebar.
- To view more details, you can click on the title name or any of the buttons**: Points to the title and buttons of a featured item.

## YOUR ACCOUNT

The HFSA Learning Center is connected to your HFSA Member Portal account. Do not create a new account if you already have an account in the HFSA Member Portal ([members.hfsa.org](http://members.hfsa.org)). You will use the same login to access your profile in the HFSA Learning Center.

For questions regarding your account please contact HFSA at [info@hfsa.org](mailto:info@hfsa.org).

## CATALOG

Click on the “Catalog” tab at the top of the course listing to access the full catalog of content. The Catalog Page will look similar to the HFSA Learning Center homepage, except now you’ll be able to view all the products available.

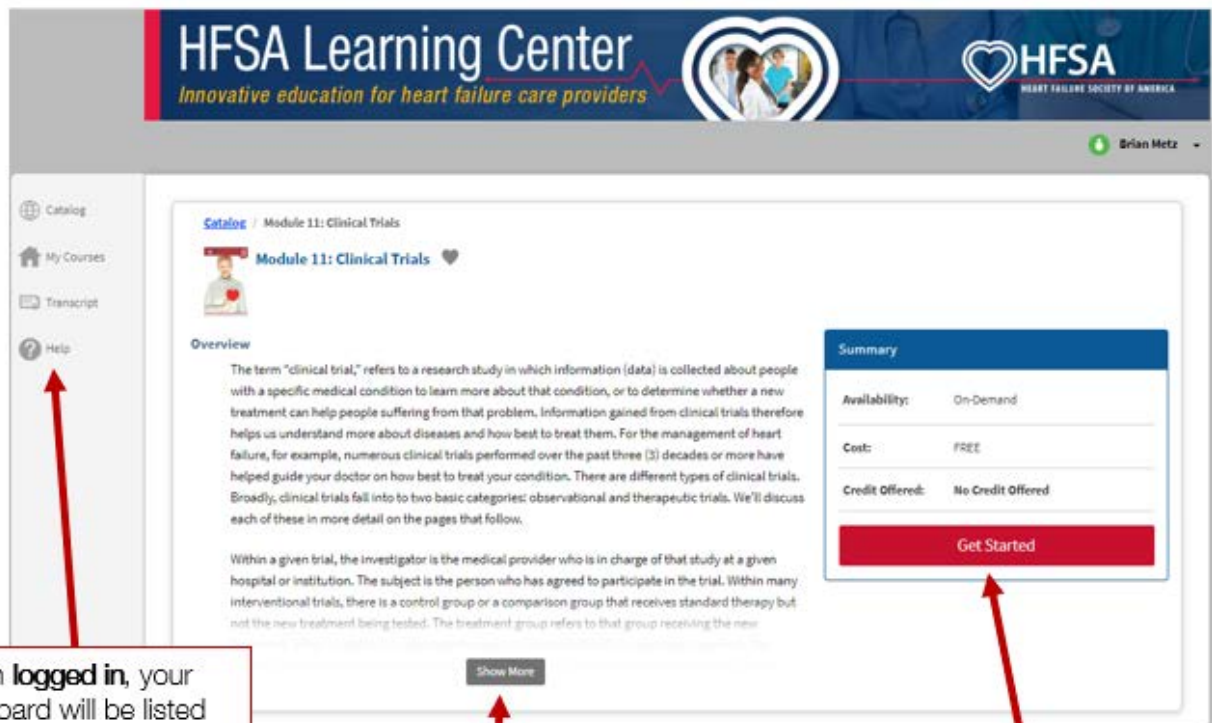

You can change how the products are listed with these buttons

To view more details, you can click on the title name or any of the buttons

## PRODUCT INFORMATION

Each product will have a summary page that provides additional information and key features of the product.

**HFSA Learning Center**  
*Innovative education for heart failure care providers*

**HFSA**  
HEART FAILURE SOCIETY OF AMERICA

Brian Metz

**Module 11: Clinical Trials**

**Overview**

The term "clinical trial," refers to a research study in which information (data) is collected about people with a specific medical condition to learn more about that condition, or to determine whether a new treatment can help people suffering from that problem. Information gained from clinical trials therefore helps us understand more about diseases and how best to treat them. For the management of heart failure, for example, numerous clinical trials performed over the past three (3) decades or more have helped guide your doctor on how best to treat your condition. There are different types of clinical trials. Broadly, clinical trials fall into two basic categories: observational and therapeutic trials. We'll discuss each of these in more detail on the pages that follow.

Within a given trial, the investigator is the medical provider who is in charge of that study at a given hospital or institution. The subject is the person who has agreed to participate in the trial. Within many interventional trials, there is a control group or a comparison group that receives standard therapy but not the new treatment being tested. The treatment group refers to that group receiving the new
