National Weather Service  
Wichita, KS

# Forecast confidence

September 3, 2025  
4:55 AM

## Location

Low	Medium	High
-----	--------	------

While confidence is high that storms will develop, confidence is lower on which areas will see better storm coverage.

## Timing

Low	Medium	High
-----	--------	------

Confidence is high that severe storms will start to affect the area around or after 4 pm.

## Magnitude

Low	Medium	High
-----	--------	------

Confidence is high that the main threat will be large hail, with golf ball size hail likely.

### *Thunderstorms* can escalate quickly.

Clear skies can quickly turn dark and ominous, whether due to pop-up thunderstorms or squall lines. Be prepared!

Set up a way to get weather warnings on your phone

When alerted to a storm, get inside a sturdy building immediately

Stay away from windows once indoors

If a building isn't nearby, get inside a vehicle
