VACCINE REGISTRATION NOW AVAILABLE

Planning to receive your COVID-19 vaccine in Saline County just got easier thanks to a collaboration between Salina Family Healthcare Center, Saline County Health Department, and Salina Regional Health Center.

“We are so pleased that 900 people, most of whom are senior citizens, were able to receive their vaccine during the first week of Phase 2,” said Jason Tiller, Saline County Health Officer. “Now that we have more clarity from the state about how much vaccine we will have and how often it will be delivered, we’ve been able to create a more long-term, sustainable solution to vaccine scheduling.”

Previously, the County Health Partners opened 900 appointments, representing all 900 doses of vaccine available, and in under 30 minutes every appointment had been claimed.

The new system works by way of registry. People who would like to receive a vaccine will sign up via the Vaccinate Saline County website by clicking on the “Register for Vaccine” tab at the top of the page. The respondent will provide eligibility and contact information, which will be used to schedule their vaccination as supply becomes available. Once doses are received from the state, the staff at Salina Family Healthcare Center will refer to the registry and begin calling eligible individuals to schedule their appointments.

“This enables us to start calling people to schedule their vaccine as soon as we know how many doses we will have available,” said Ann Feil, Salina Family Healthcare Center Chief Operating Officer. “We know people are anxious to receive their vaccine and we hope that this registry will allow everyone to sleep a little easier knowing that it is in their future.”

It is important to remember:

- By registering for a vaccine, you are not yet scheduling your appointment.
- SFHC will call you when vaccines become available.
- Please do not call with inquiries about timeline to receive your vaccine or vaccine availability.
- Only those currently eligible under the Phase 2 guidelines should register at this time.
