

CALL FOR CHILDREN AND FAMILIES FROM THE DISABILITY COMMUNITY FOR PROFESSIONAL PHOTO SHOOT AT CHILDREN'S DISCOVERY MUSEUM

DATE: Sunday, July 21 from 9:00 a.m. to 11:00 a.m. at the museum located in downtown San Jose at 180 Woz Way.

WHAT: The museum is expanding its image library to represent children and adults of various abilities in its marketing program. Our goal is to ensure that everyone feels welcomed and included at the museum. To do this we need to visually represent the rich diversity in the community and that includes all abilities.

USAGE: Images captured at the museum will be used in our general marketing materials, as well as materials for specific programs such as our Afternoons for All Abilities. The images could appear on the museum's website, on social media, and in advertising.

AGE RANGE: 2 - 10 years old

DIVERSITY: We strive to represent the many different ethnicities we serve. We also like to have a mix of girls and boys. For this shoot we're representing a variety of abilities, including children in wheelchairs.

SHOTS: The shoot is mostly capturing candid shots of children playing in the areas we've identified for photographs, along with a few set-up shots.

THANK YOU! Each child will receive a pass to return to the museum, along with a goodie bag.

ADDITIONAL INFO: We do professional photo shoots every year. We're efficient and respectful of people's time and it's typically really fun for the kids because they're just playing in the museum ...while getting photographed.

CONTACT: Cecilia Clark, 408-673-2865, cclark@cdm.org
