# High Security Door Kits

## Self Contained & Ready to Install

Meets & Exceeds ICD-705 Requirements

### BENEFITS

#### Eliminates Potential Hardware Issues

#### • Pre-Assembled

Our door packages are pre-assembled, which eliminates potential hardware issues. Our trained installers mount the locking device and strike during assembly so you are assured compatibility with the door and frame.

#### No Need For Multiple Vendors

#### • One Contact

When you order a Door Kit from Lockmasters, you work with one customer service representative for everything. No more multiple phone calls, multiple orders, multiple shipments. One Call. One Shipment. One Install.

#### More Efficient Installation Reduces Expenses & Downtime

#### • Cost Effective

One shipment contains everything you need. The fully assembled doors comes ready to set into the door opening. No need for multiple installers anymore. One shipment also means no more downtime waiting on products.

#### Improved Door & Locking Device Functionality

#### • Proper Functionality

Since the doors are built to high security specifications you are ensured once installed of proper door and lock function.

#### Industry's Best Customer Support

#### • Support

Let our experienced staff assist you in building a door kit that meets high security requirements. From order to post-installation, our staff is here to make your door installation as smooth as possible.

### ONE WARRANTY

All components' warranties managed by Lockmasters. Door and frame are a mounted assembly with a 14 month warranty after shipment.
