

# Join Ouray County Vegetation Management on a Noxious Weed Pull

Ouray County Vegetation Management would like to welcome the community to join us in pulling noxious weeds. While we are in the field, staff will help identify noxious weeds that need to be pulled. As we pull weeds, we would love to answer any questions you have about noxious weed identification and management.

**June 8, 2024 - 9:00 AM - 12:00 PM**  
**Frontier Field - Meet in parking lot off of CR 23**

Please be sure to bring anything you may need to spend the morning pulling weeds out in the Colorado sun! We suggest sunscreen, hats, gloves, sun gear, hand tools/shovels, and plenty of water.
