

Environmental Overlay Zone Map Correction Project

Project Overview January 2019

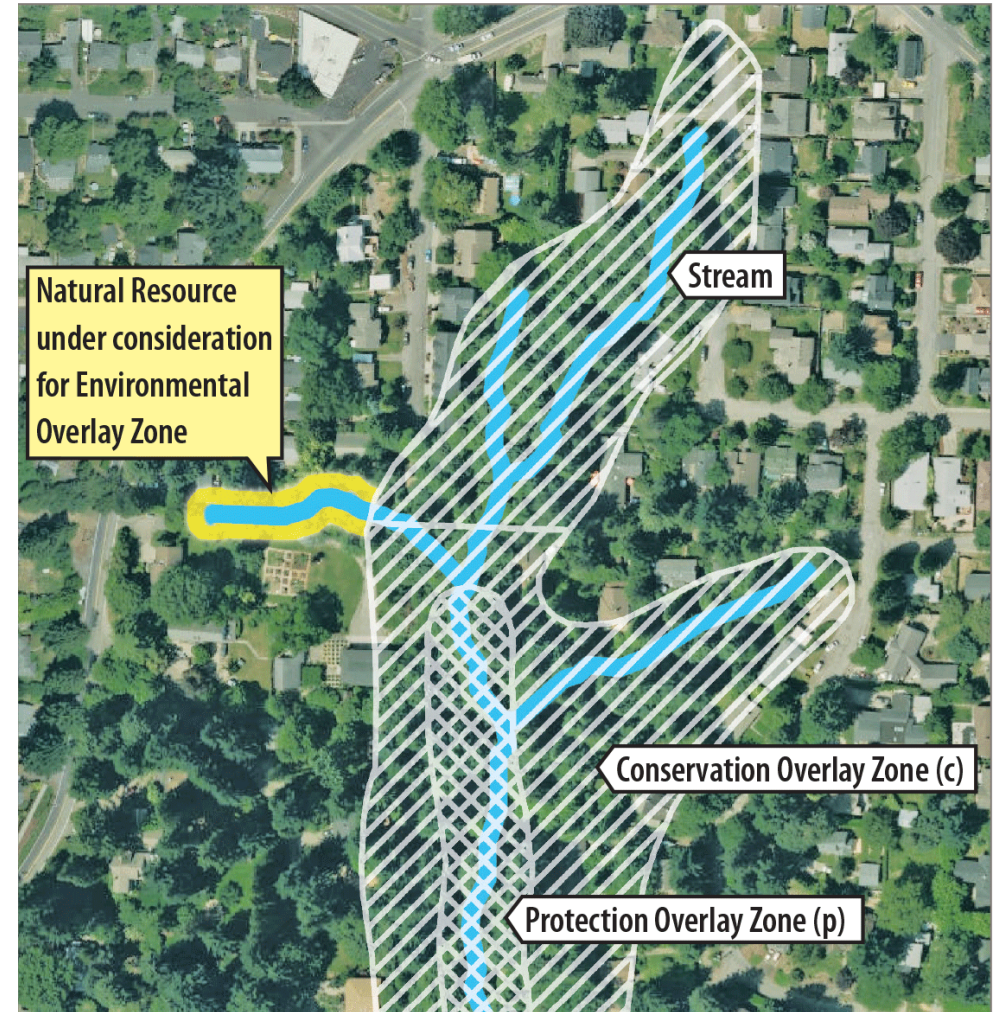

Presentation Agenda

1. Overview of the Project
2. Explanation of Environmental Overlay Zones
3. Who is impacted by the Project
4. How to use the Ezone Map

Ezone Map Correction Project Overview

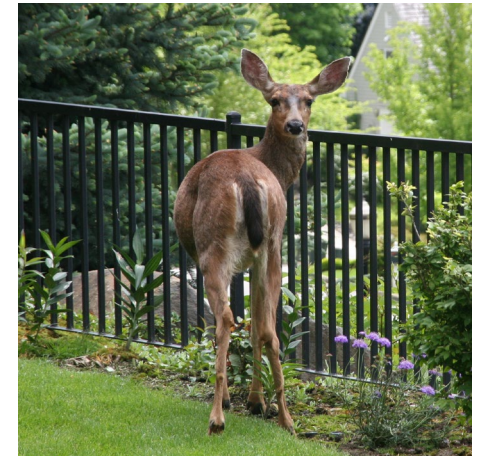

Purpose: to correct the location of the environmental overlay zone boundaries (c, p and v) to better align with existing natural resources

What are Environmental Overlay Zones?

Environmental Overlay Zones are

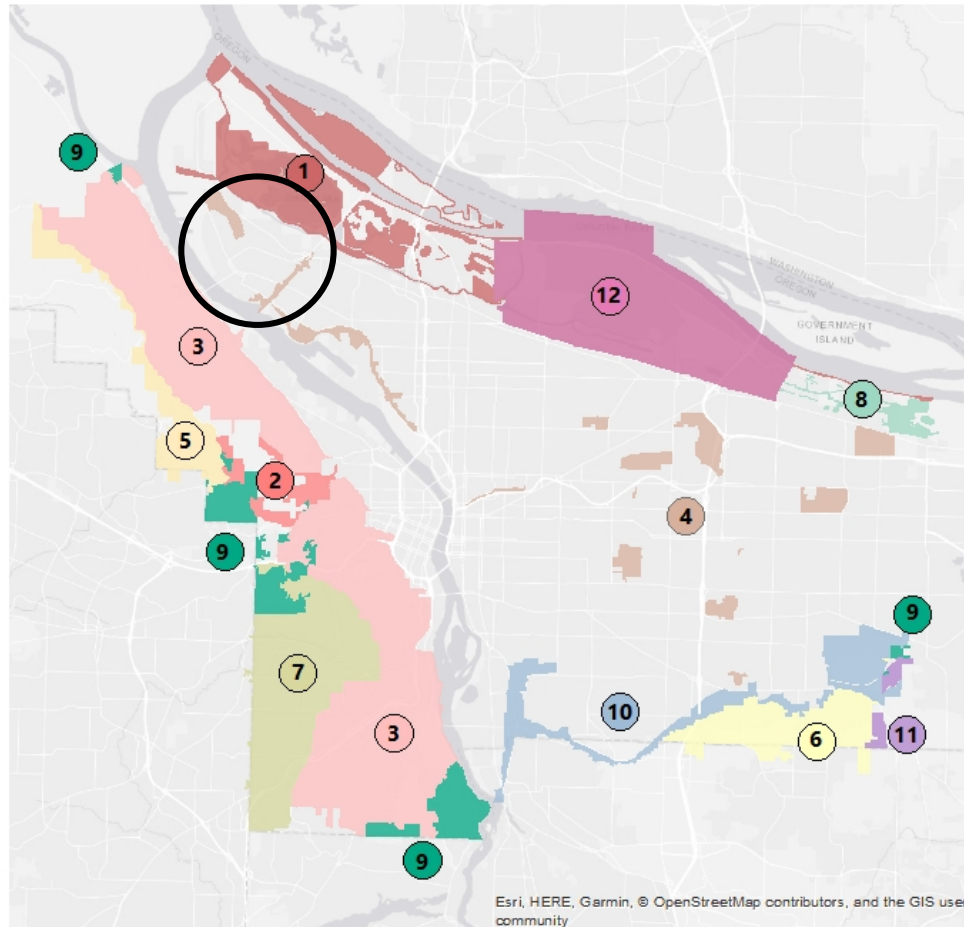

A zoning code tool used by the City to help protect streams, wetlands, flood areas, forests, steep slopes and wildlife habitat in your neighborhood

What are Environmental Overlay Zones?

- 1989**
Columbia Corridor Industrial Area ①
- 1991**
Balch Creek Watershed Protection Plan ②
- 1992**
Northwest Hills Natural Areas
Southwest Hills Natural Areas ③
- 1993**
East Buttes, Terraces and Wetlands ④
- 1994**
Skyline West Conservation Plan ⑤
- 1997**
Boring Lava Domes / Johnson Creek ⑥
- 1999**
Fanno Creek and Tributaries ⑦
- 2000**
Columbia South Shore ⑧
- 2002**
Multnomah County Unincorporated ⑨
- 1991, '97, '01, '03**
Johnson Creek Basin ⑩
- 2004**
Pleasant Valley District Plan ⑪
- 2010**
Middle Columbia Corridor ⑫
- 2012**
Natural Resource Inventory Adoption ●
- 2018 - 2020**
E-Zone Map Correction Project ●

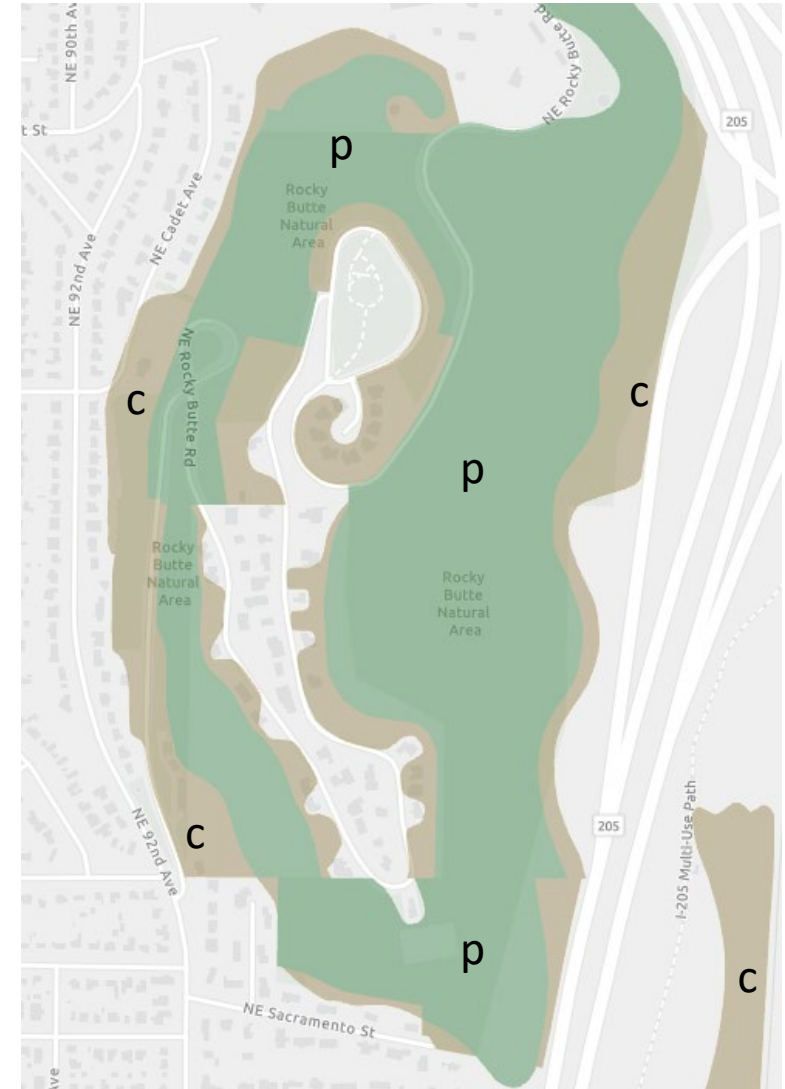

City of Portland, OR
30 Years
 Actively Conserving Natural Resources

What are Environmental Overlay Zones?

Conservation zone – applied to important natural resources but where some development may be permitted

Protection zone – applied to critical resources where development should be avoided

What are Environmental Overlay Zones?

Existing houses, garages, yards can stay where they are and be maintained, repaired and in most cases replaced.

What are Environmental Overlay Zones?

What is the Ezone Map Correction Project?

Project Steps:

1. Use the 2012 city-wide Natural Resources Inventory (NRI)
2. Follow the adopted plan policies
3. Produce draft remapped ezones
4. Perform site visits
5. Adjust the ezone boundaries

EAST BUTTES, TERRACES AND WETLANDS CONSERVATION PLAN

INVENTORY, ANALYSIS AND REGULATIONS
FOR THE PROTECTION OF
EAST PORTLAND NATURAL, SCENIC AND OPEN SPACE RESOURCES

Adopted by City Council May 26, 1993
Effective June 25, 1993

Ordinance No. 166572

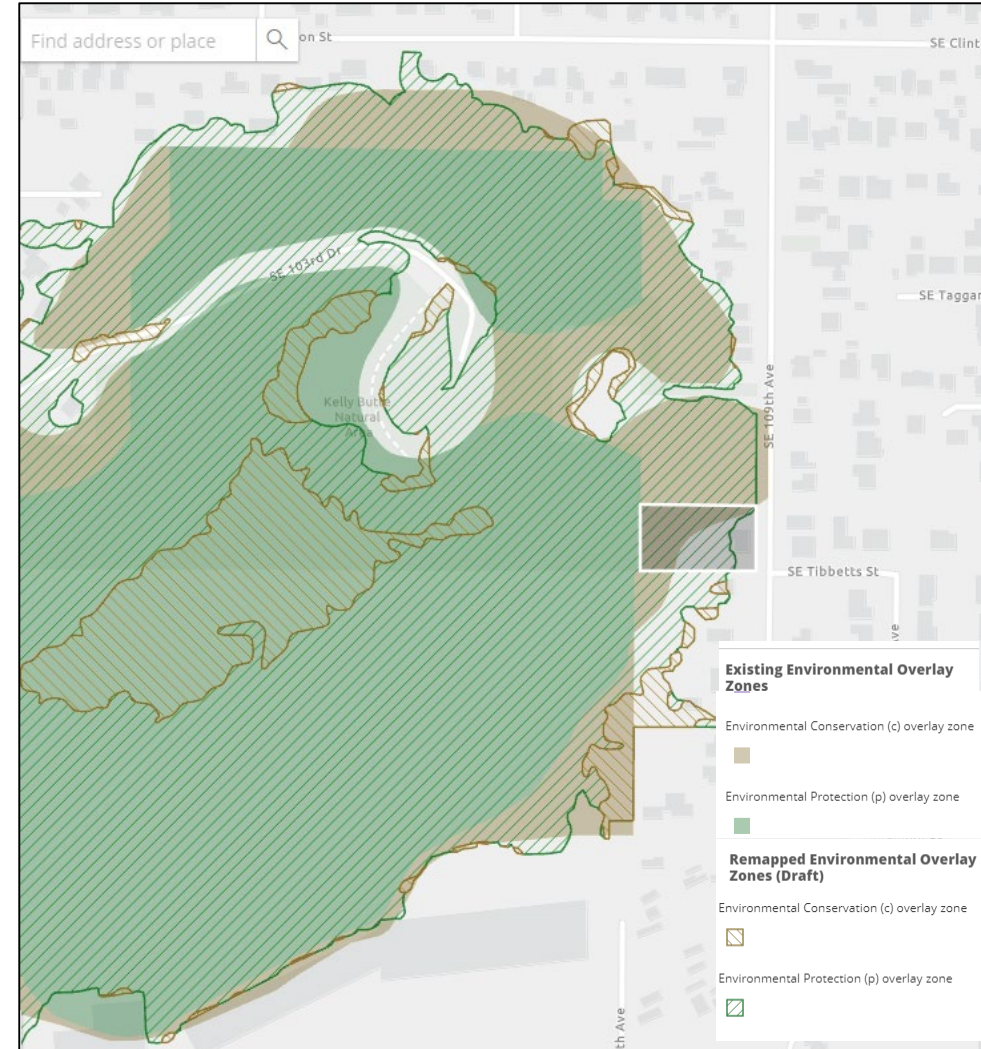

Bureau of Planning
Portland, Oregon
July 1993

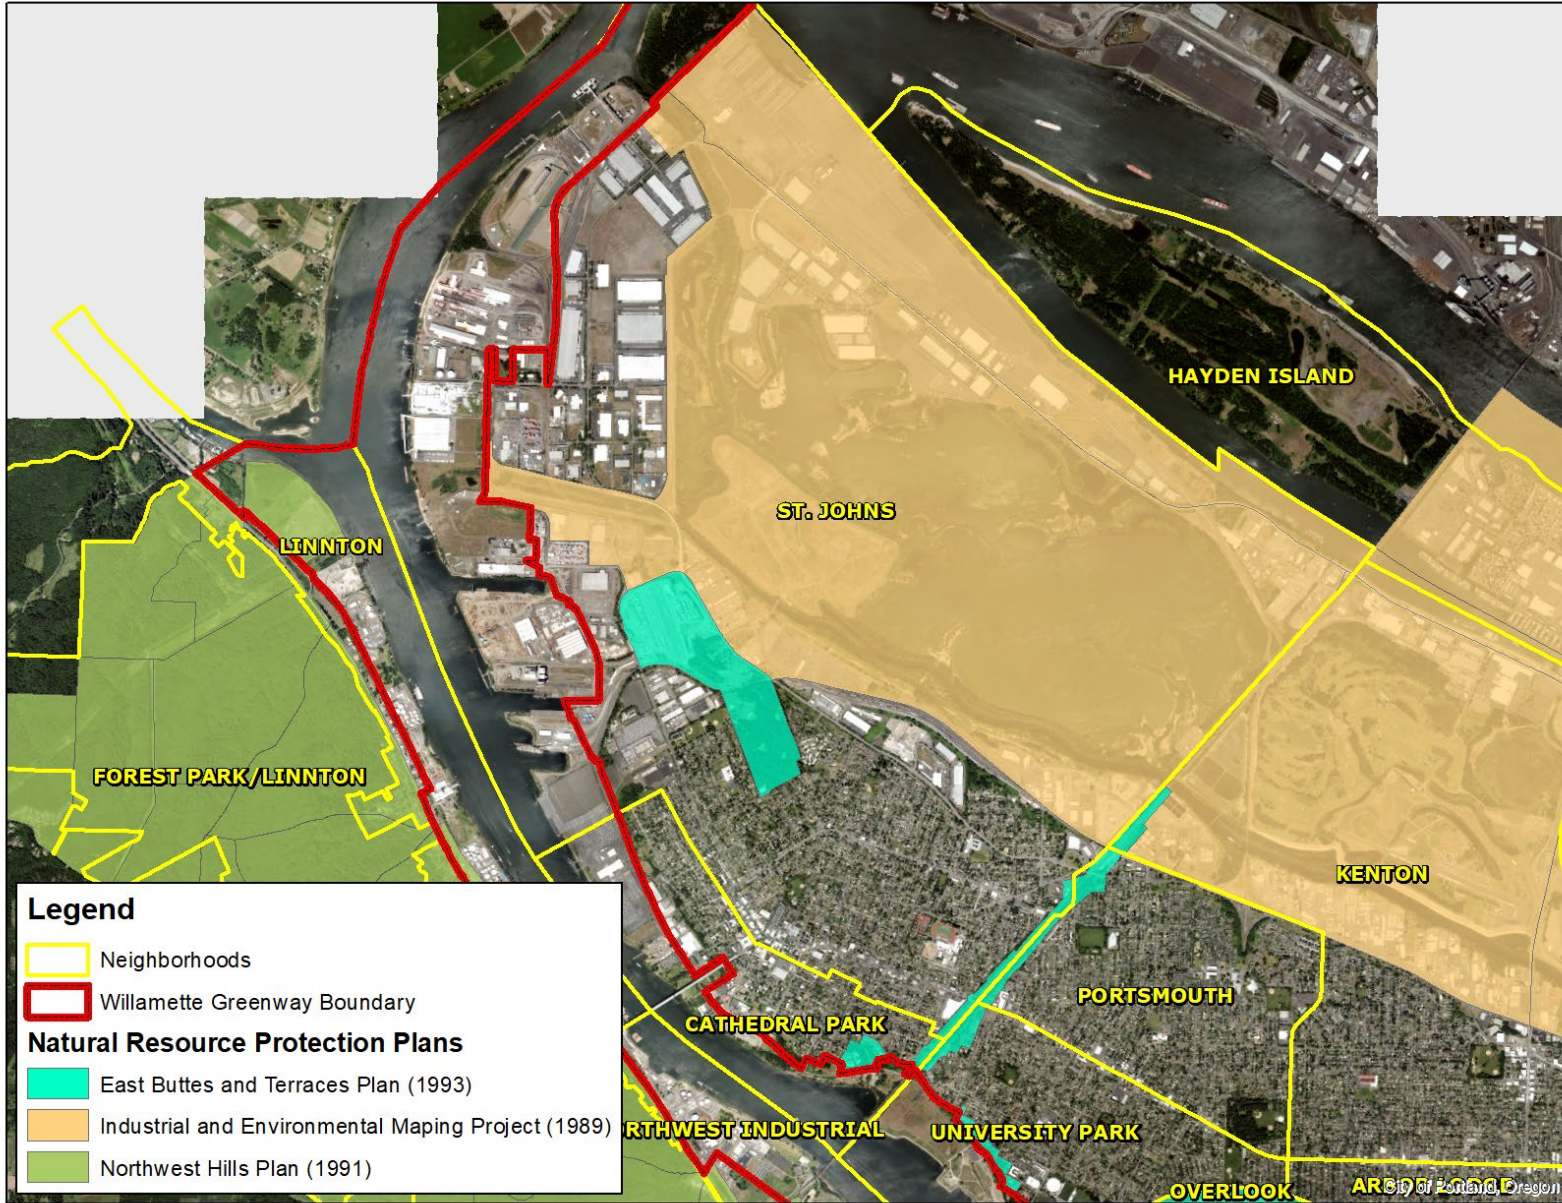

Who is impacted?

Property owners with ...

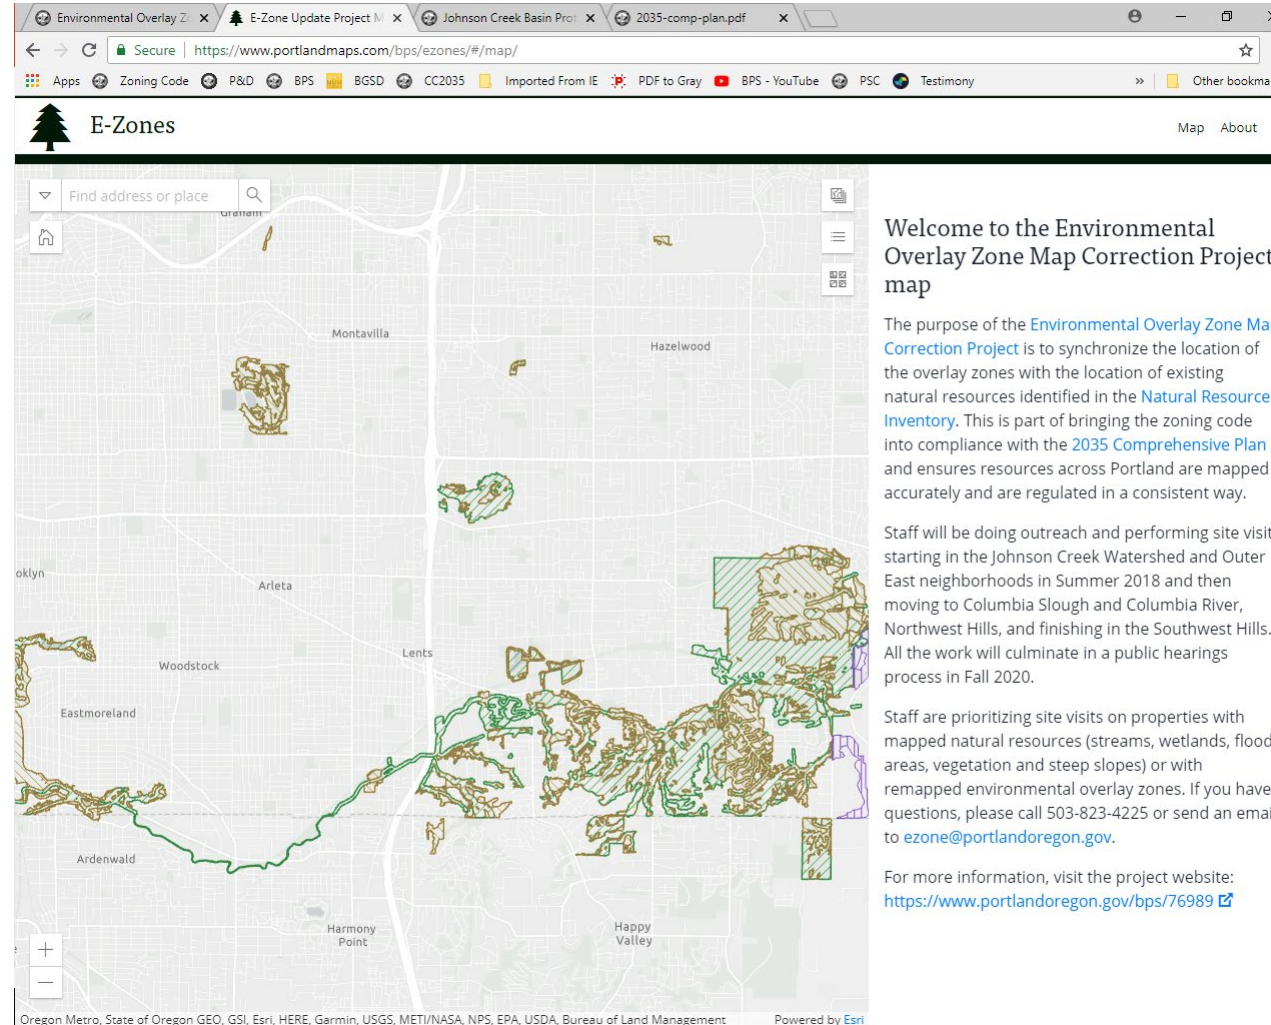

- Existing ezones (c, p or v)
- River, streams or wetlands
- Near (~30-75 feet) waterbodies
- Floodplains
- Steep slopes
- Big stands of trees

Who is impacted?

How to use the Ezone Map

The screenshot shows a web browser window with the URL <https://www.portlandmaps.com/bps/ezones/#/map/>. The page title is "E-Zones" and it includes a "Map About" link. The main content area features a map of Portland with various colored overlays representing environmental zones. To the right of the map, there is a welcome message and detailed information about the project.

Welcome to the Environmental Overlay Zone Map Correction Project map

The purpose of the [Environmental Overlay Zone Map Correction Project](#) is to synchronize the location of the overlay zones with the location of existing natural resources identified in the [Natural Resources Inventory](#). This is part of bringing the zoning code into compliance with the [2035 Comprehensive Plan](#) and ensures resources across Portland are mapped accurately and are regulated in a consistent way.

Staff will be doing outreach and performing site visits starting in the Johnson Creek Watershed and Outer East neighborhoods in Summer 2018 and then moving to Columbia Slough and Columbia River, Northwest Hills, and finishing in the Southwest Hills. All the work will culminate in a public hearings process in Fall 2020.

Staff are prioritizing site visits on properties with mapped natural resources (streams, wetlands, flood areas, vegetation and steep slopes) or with remapped environmental overlay zones. If you have questions, please call 503-823-4225 or send an email to ezone@portlandoregon.gov.

What is the schedule?

Why is the project needed?

The Ezone Map Correction Project is required to bring the zoning code into compliance with the 2035 Comprehensive Plan

Drop-in Hours

Woodstock Library

6008 SE 48th Ave

August 29, 2018

11am – 1pm

September 27, 2018

4pm – 6pm
